STORY ON CONFERENCE Conference April 14, 15, & 16

This weekend is the one we have long waited for. This is what we have been working for the last three months for. This is the Conference that we hope will place M.T. Clements in nomination as Area Chief and help elect him. There will be a sentry dog and a survival demonstration put on by Turner A.F.B. and secured for us by our Lodge Chief James Parker. We must realize that although we have put a good deal of work into the Conference that there is much more to be done during the actual conference. The following committees have been drawn up of the lodge members who have paid at least their reservation fee of \$2.50

Bruce Smith	Billy Seymour

THOUGHT FOR MONTH

Brotherhood and service are ours only when we take the same to others.

We would like to congratulate Americus on winning the State Class "A" Basketball Championship. Also congratulations go to Tifton who came in second in the State Class "AA" Basketball Tournament. Our Lodge is represented on these two teams by some of our former members and a few that are still active.

There will be an archery contest and a rifle range test at the Conference. Our Lodge is going to enter so be practicing up with the bow and arrow and also with your guns. It would be nice to win for our Lodge.

DAFFYNISHION

Work - the yeast that raises the dough.

PERSONAL GLIMPSES

A big question - Will Wayne Woodward come to the Conference or have a date (with a girl or otherwise? Wayne?)

Buck Turpen & Bob Wallis are able to get other things beside catsup to come out of catsup bottles. Eh! Buck & Bob!

Like to welcome James Gary Stutler (formerly of Kosco Lodge) into our Lodge. We are very glad to have you.

JOKE

NEWS FLASH - A big game hunter (Alias James Teeter) is missing in darkest Africa. It is feared that something he disagreed with ate him.

REPORT ON LAST WORKDAY

On April 25, we held our last official workday for the Conference. Among the tasks performed were: A tree was cut that had fallen across the road leading to the lake; all tents were put up; cots were placed in the tents; work was begun on cleaning up the mess hall; and work was completed on the O.A. Ring. A few surprising things happened at this workday. Among them were: the officers arrived on time; Cuddlos received an unexpected shower of water; we finally had a decent meal (hamburger steak, no less); and Mike Henry did some work (all day)!
