2014 No. 4 (September)

Withlacochee Lodge held its summer fellowship at Camp Osborn August 15-17, 2014 and it certainly was a memorable weekend. Besides the great food from the Cook Team, learning about all the events planned for next year's OA centennial celebration, and the tolerable summer weather, it was a special weekend any way you look at it. The lodge held a formal ribbon-cutting ceremony for the Burrow which was attended by several members of the South Georgia Council Board as well as representatives from the companies that donated materials and funds to renovate the building. On Sunday morning, the Lodge Executive Committee also held its first meeting in the Burrow which proved to be a great facility for the lodge. The Ceremony Team performed the new Brotherhood Ceremony for the first time in our lodge's history and three of our Ordeal members completed the final stage of their induction by achieving Brotherhood membership. Congratulations to Andrew Deaver, William Wingertsahn, and Stephen Waddell for sealing their membership in the Order of the Arrow. We also had a very special guest join us for the weekend. The Gopher Tortoise in the adjacent photo was crossing Ranger Eric's yard around 5:30 PM on Friday night as if he was showing up for the weekend. We checked the tortoise in, verified he paid his 2014 lodge dues, checked his annual BSA Annual Health and Medical Record, found him a place to sleep, and gave him his event patch. Our special lodge totem appeared to enjoy the time he spent with us. He has a copy of our lodge event schedule in his burrow and promised to join us again at another event in the near future.

Gopher tortoises are known for their digging ability. Gopher tortoises spend most of their time in long burrows, up to 48 feet in length and 9.8 feet deep. In these burrows, the tortoises are protected from summer heat, winter cold, fire, and predators. Except during breeding season, gopher tortoises are solitary animals. Within their range they dig several burrows. Each gopher tortoise needs about 4 acres to live.

Arrowman Service Award

Members of the Order of the Arrow will soon be able to celebrate the organization's 100th anniversary by working to complete the Arrowman Service Award. This award, which some are referring to as "the sash patch," will be recognized as one of the few patches that have ever been approved by the national committee to be worn on one's Order of the Arrow sash. The purposes of the ASA are to encourage Arrowmen to recommit themselves to the ideals of the Order, strengthen their commitments to their local councils, and take part in the 100th anniversary events. The award will have 3 categories of criteria with various requirements that Arrowmen can complete. These include components on personal growth, service to Scouting, and participation in the centennial celebration. The ASA's development has been similar to previous awards created for significant anniversaries of the Order. During the 60th anniversary, Arrowmen could earn the Bicentennial Award. The Order's history website provides more information on the details of past awards, and helps to give an idea of what the 100th anniversary award will be like. Members can begin working on the Arrowman Service Award right now and Arrowmen can continue working towards its completion through December 31st, 2015. Arrowmen can fill out a requirement card that is available for download on oa-bsa.org, withlacocheelodge.org, or at any lodge event. After the lodge adviser has approved the completion of the ASA requirements, the Arrowman will receive a patch to recognize the Arrowman's recommitted to our three fundamental principles.

"Never hold resentments for the person who tells you what you need to hear; count them among your truest, most caring, and valuable friends."
- Mike Norton, *Just Another War Story*

The National Order of the Arrow Conference is less than a year away. NOAC will be August 3-8, 2015 at Michigan State University. We plan on taking 30 Withlacoochee Lodge Arrowmen to this historic event. Registration forms are on the lodge website and Facebook page. See any lodge officer for more information and learn how you can be part of the adventure!

BOY SCOUT PATCH HOBBY
by Mr. David Vaughn

I have been trading patches for 55 years. I get just as excited to go to a NOAC or conclave or jamboree as I did as a youth. It is just so much fun to me to take a handful of patches and see all the neat items you can come up with by the end of the day. It's a good way to make new friends and have a common interest together. My longest and dearest friends in my 68 years have been patch traders.

Patches are the best souvenir I can think of to bring home from an event. You can wear them on your uniform, put them on a jacket or blanket, mount them in a book, or even put them on a wall in your room. They are always nice to look at and bring back memories of the event years later. The best part of all is if you get tired of them you can just go off and trade them at your next event. Many times they are more valuable later.

If you are worried about trading follow these guidelines. First use your common sense. If you like what you are getting and you don't mind giving up the one you traded, then it was probably a good trade. Start off with traders that will trade 1 for 1. That's easy and no one gets taken. Patches do vary in value based on appearance, how many were made and restrictions. You will get a feel for that as your trading experience grows. Just don't get in a hurry. If you make a bad trade, just learn from it next time. Everyone has gone through a few bad trades, but also through many more good trades.

Patch trading / collecting is a great hobby and so much fun. Start acquiring extra patches now to be ready for trading at the April conclave and especially at the 2015 NOAC. Trading at the NOAC is 10 times better than trading at the conclave. So be saving up extra patches and don't forget to bring them when you come.

The Cedar tree as stood at the SW corner of the Camp Osborn OA Ceremony Ring since the ring was built in 1984. For 30 years it served as the place to gather torches, candles, and other items for the ceremonies. But it is now dying. Camp Ranger and Vigil Honor Brother Eric Ginter will cut the tree down this fall. The wood will be saved and we will take some of the wood with us to NOAC 2015 in our lodge crate to contribute to the Brotherhood Fire. We will also use some of the wood for the lodge's 2015 Ordeal candidates to carve their arrows during their Ordeal as part of our special OA centennial celebration. We will miss the tree but it will remain part of our memories and a unique legacy for Arrowmen inducted in 2015.

WITHLACOOCHEE LODGE HISTORY

Vigil Honor member Mr. J. Michael Greene recently completed the Withlacoochee Lodge history book. Each lodge in the country was asked to document their lodge history and send it to the National OA Committee as part of the Order of the Arrow's centennial celebration. The Withlacoochee Lodge History contains the histories of the two predecessor lodge and is detailed and comprehensive - very likely among the best lodge histories in the OA. The Withlacoochee Lodge history is available on our website: withlacoocheelodge.org. Please thank Mr. Greene for his hard work and dedication as our lodge historian.
